Message from our Director July 2023

Summer is finally in full swing, and so is our summer program. We will be having a lot of fun things in the center, so please follow the calendar that we passed out in June. Please keep an eye out for water days. We would like all the children to be able to participate in our water play days, and the children need to have swim wear, or extra clothes to change into. We also ask that you bring in a pair of shoes the kids can get wet, such as water shoes, or sandals. Our playgrounds have wood chips and the children's feet could get splinters if they don't have shoes on during water play. We are all looking forward to some fun in the sun!

Upcoming Events

July 3rd: Red, White and Blue Day!

July 4th: Closed for Independence Day

July 7th: Pajama Day

July 14th: Crazy Hair Day

July 21st: Water Play Day

July 25th: Kid's BBQ Picnic

July 28th: Pajama Day

Supporting Your Child's Development. One Step at a Time...

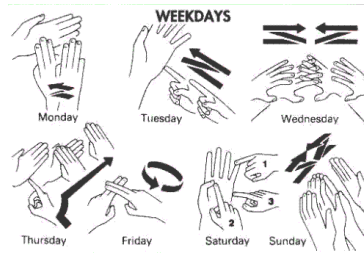

Occasionally we will get children in the center that have a need for a specialist to come in. In these cases the parent, and their health care team, set up times for their child to get some special help and guidance during the time they are in our care. The staff enjoy having these visitors in our center and gain a lot of knowledge about caring for the child that is being visited, which in turn helps all of the children in the center. If you are in a situation that you need a specialist to come into the center, please ask in the office and we can work together to support your child.

We also work with Kinderling Center to help parents who would like their child observed to get a referral.

Songs & Signs

Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday...

The preschool children are learning the days of the week by signing each day of the week, and learning how to sign the days in sign language.

Focus on Fun

It's officially our summer quarter! This quarter starts July and goes through September. There are three units: Everything Changes, Make it, Build it, Move it and School Unit. The first unit is about seasons, colors, weather and opposites. The children will be exploring these concepts with experiments, art and literature.

Elementary School Schedules & Closures

Summer Time! Please let us know of any summer school schedules, or vacations you may be taking.

Play...Teach...Love

One of the best parts of working in child care is the baby room. It is always fun to cuddle, feed and care for the babies. Every day they are learning something new, such as cooing, rolling over or eating on their own. Infants hold a special place in our hearts. As they grow into "kids" they love to hear stories of when they were babies!

Happy Anniversary!

Ms Diana

Ms. Diana has been in our center for a year! She is one of our all around floats, and has had opportunities to work in all classrooms. Thank you Diana for all you contribute to the center.
