Message from our Director

November is here and this means the beginning of the holidays, and the end of fall. During this time there are a variety of holidays our families celebrate. If your family has a favorite, please share it with us! If there are customs that your family has, please let us know, and we can share those with the children. We are all looking forward to our Thanksgiving lunch on November 22nd. Meal times in the center are always a good time to socialize, share thoughts and laughter!

We look forward to a wonderful month!

November 10th: Closed For Veteran's Day
November 22nd: Half day, Lake Washington School District
November 23rd-24th: Thanksgiving Vacation

Supporting Your Child's Development. One Step at a Time...

Play is an important part of development, and where is a better place to play than outside and in nature! The children learn so much from outside play. There is a lot of imagination going on, kids working together to build large "houses", running becomes a game of superheroes, and we can't forget the large motor skills the children are learning when they are throwing balls, climbing and riding their trikes. They are in a whole different world when they are playing outside. The creating and pretend just doesn't end!

Focus on Fun

During November we will be exploring the environments that we see every day, including the mountains, beaches and forests. This engages the children in nature and how it adds to our life, and the science that goes with it.

Traveling is a big part of November for some families, and we will be talking about the fun times we will have during the holidays, the places we will go and wish we could go. We also talk a lot about families during November as well.

November

Songs & Signs

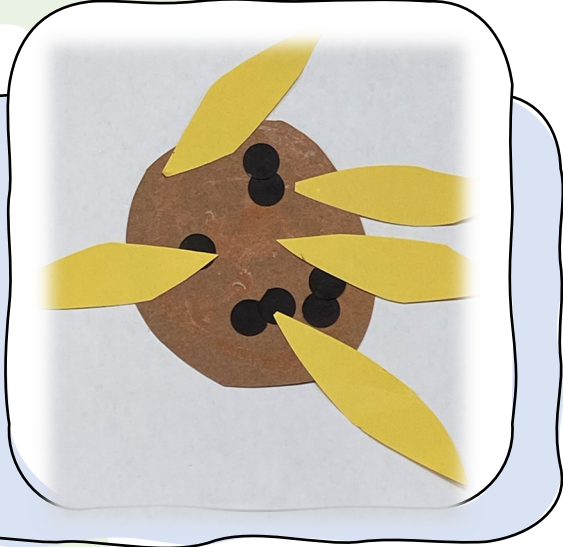

Our waddler room is doing a fun song and dance called El Mango Relajado. The song is in Spanish and has a great Latin beat! The kids groove to it and love to do motions that go with the song.

Play...Teach...Love

Every day we step into the classroom, with our curriculum, art project and circle time ready to go. We look forward to the children exploring the materials that we have provided for them, observe them with the materials, and hearing that moment where a child's mind seems to click! It's as exciting for us as it is for them. We love sharing that part of their life and making a difference.

Happy Anniversary!

Ms. Rebecca
Ms. Rebecca has been at Lil' People's World since 2012, making it 11 years for her here! The children love her science and activities. It is great having Rebecca on our team at LPW Kirkland!
